## ORDER OF THE STATE OF WISCONSIN NATURAL RESOURCES BOARD REPEALING, RENUMBERING AND AMENDING, AMENDING, AND CREATING RULES

The Wisconsin Natural Resources Board proposes an order to **repeal** NR 410.03 (1) (d); to **renumber and amend** NR 410.03 (1) (a) 5. to 7.,and (b) (intro.) and 1. to 4., (f); to **amend** NR 410.03 (intro.), (1) (a) (intro.), 1. to 4., and 8. to 10., (bm), and (e), (2), and (4); and to **create** NR 410.03 (am) 1. and 2., and (as) 1. and 2. relating to fees for reviewing applications for construction of air pollution sources and affecting small business.

## AM-09-10

## **Analysis Prepared by the Department of Natural Resources**

- **1. Statute interpreted:** Sections 227.11(2), 285.11(1) and (6), 285.14(1), Stats. The State Implementation Plan developed under s. 285.11(6), Stats., is revised.
- 2. Statutory authority: Sections 285.11, 285.69(1) and (1d), Wis. Stats.
- **3. Explanation of agency authority:** Section 227.11(2)(a), Stats., gives state agencies general rulemaking authority. Section 285.11, Stats., gives the Department authority to promulgate rules consistent with ch. 285, Stats. Section 285.69 gives the department the authority to promulgate rules for the payment and collection of reasonable fees for construction permit related activities.
- 4. Related statute or rule: None.
- **5. Plain language analysis:** The proposal is to increase fees for construction permit related actions to ensure that the new source review program has adequate funding to perform it's duties in accordance with requirements and deadlines mandated under s. 285.61, Wis. Stats.
- **6. Summary of, and comparison with, existing or proposed federal regulation:** Existing federal regulations require, but do not set, fees for review of construction permit applications. Section 110(a)(2)(E)(i) of the Clean Air Act requires that any government who wishes to carry out a State Implementation Plan have "adequate personnel, funding, and authority under State law to do so." Wisconsin's new source review program is an approved part of the State Implementation Plan and therefore requires adequate funding. US EPA last approved a revision to Wisconsin's State Implementation Plan for a fee related provision on March 11, 2008. [73 FR 12893].
- 7. Comparison with similar rules in adjacent states (Illinois, Iowa, Michigan and Minnesota): Other state agencies were contacted to obtain information regarding their air permit programs. While an attempt was made to do a direct comparison, it proves to be difficult since the funding sources and fee structures differ from state to state. No state was able to provide accurate, average costs of different types of construction permit reviews. Based on the review conducted, it appears that fees proposed in this order are similar to those being charged for similar activities in adjacent states having a fee based construction permit program.

Illinois and Indiana have similar programs to Wisconsin where their new source review program is funded mainly by construction permit fees. Illinois last raised their fees in 2004, Indiana in 2007.

Michigan relies on general funding for their new source review program. Communications with Michigan indicate there have been internal proposals in Michigan to establish permit fees to help fund the new source review program, but none have moved forward at this time.

Minnesota currently has a proposal to raise construction permit fees and to structure the fees much like Wisconsin, Illinois, and Indiana. Their proposal would have core activities paid through permit fees. Major reasons given for their proposal to raise fees are that the cost and complexity associated with new source review has increased significantly over the years. Minnesota's current fee structure attempts to base the amount on the level of effort needed to review and issue the air permit.

lowa funds its new source review program through grants and general funds. There are two local lowa air pollution control agencies that do charge construction permit fees to fund new source review.

Comparisons for fees common to adjacent states:

	Illinois	Indiana	Minnesota	Wisconsin (current)	Wisconsin (proposed)
Initial Application Fee	\$5,000	No fee	No fee	\$1,350	\$7,500
BACT/LAER Determination	\$5,000	\$4,375	\$4,275	\$2,700	\$4,500
Case by case MACT Determination	\$5,000	No fee	No fee	\$2,700	\$4,500
Detailed Modeling Analysis	No fee	\$4,375	\$4,275	\$3,200	\$4,500
Public Hearing	\$10,000	\$625	No fee	\$150	\$950
Application for Major Modification	\$8,000/\$12,000	\$10,000	No fee	\$8,000	\$12,000

**8.** Summary of factual data and analytical methodologies used and how any related findings support the regulatory approach chosen: Data related to revenues generated by new source fees for FY05-FY09, along with projected work load and costs to administer the new source review program, were used to develop and support this order.

<u>Annual new source review program cost.</u> Estimates were made as to the type and number of construction permit reviews to be conducted in the upcoming fiscal year. For each of these, the level of program effort required to complete each type of review was determined. These levels of efforts then were used to estimate the annual cost to administer the construction permit program, taking into account estimated costs for program staff.

<u>Individual fee increases.</u> A 30% increase was applied to fees last revised in 1999 to account for inflation over the last 11 years. An additional increase was also applied to each fee category to better reflect the level of effort associated with the fee related action. Estimates were made as to the number of fee related actions associated with each type of permit review. These estimate were used in conjunction with the proposed fee to determine that the projected future revenue is sufficient to cover the annual program cost.

- 9. Analysis and supporting documents used to determine the effect on small business or in preparation of an economic impact report: The same information described under number 8. was used to determine the effect on small business. No economic impact report has been requested.
- **10. Effect on small business:** The cost to small business to obtain a minor construction permit is proposed to increase in the range of 30 to 75 percent depending on the air regulations applicable to the project. The current cost of a minor construction permit sometimes associated with small business, ranges from \$6,000 to \$8,000.

Many small businesses are able to qualify for coverage under general or registration permits in lieu of needing to obtain a minor construction permit. Currently there is no charge for review and issuance for this type of coverage. New fees are being proposed in this order for reviewing and issuing coverage under a general or registration construction permit, establishing the fee for a general construction permit at \$1,500 and a registration construction permit at \$1,000.

- 11. Agency contact person: Andrew Stewart, andrew.stewart@wisconsin.com, 608-266-6876.
- **12.** Place where comments are to be submitted and deadline for submission: Public hearings have been scheduled for:

<u>Date and Time</u> <u>Location</u>

June 7, 2010, Monday Natural Resources State Office Building

at 3:00 PM Room G09

101 S. Webster Street

Madison, WI

June 8, 2010, Tuesday Havenswoods - Auditorium

at 2:00 PM 6141 N Hopkins Milwaukee, WI

June 9, 2010, Wednesday Northcentral Technical College

2:30 PM Main Building, Room E101 1000 West Campus Drive

Wausau, WI

Comments of the proposed rule must be submitted on or before <u>June 14, 2010</u>. Written comments may be submitted at the public hearings, by U.S. mail, fax, e-mail, or through the Internet, and will have the same weight and effect as oral statements presented at the public hearing. Written comments and any questions on the proposed rules should be submitted to:

Proposed Air Pollution Control Rules Calendar at http://dnr.wi.gov/air/rules/calendar.htm ...

SECTION 1. NR 410.03 (intro.) and (1) (a) (intro.) and 1. to 4. are amended to read:

NR 410.03 (intro.) Any person required under s. 285.60, Stats., to obtain a construction permit for a direct source shall pay an application fee which is the sum of the basic fee under sub. (1) and any additional fees under sub. (2). Any person requesting revision of a direct source construction permit shall pay the basic fee in sub. (1) (a) 5 (1)(ae). Any person required to obtain a determination of exemption from the department shall pay the basic fee in sub. (1) (b). Any person requesting a waiver to commence construction under s. 285.60 (5m), Stats., or s. NR 406.03 (2) shall pay the basic fee in sub. (1) (bm). Any person required under s. 285.60, Stats., to obtain a construction permit for an indirect source or a determination of an exemption under s. NR 411.04 for an indirect source shall pay the appropriate fee under sub. (3).

(1) (a) (intro.) Each person issued a submitting an application for an individual construction permit for a direct source shall pay the following applicable basic fee: in this paragraph and shall submit a \$7,500

initial fee with the application. The initial fee shall be subtracted from the final amount required under this section and may not be refunded, except as provided in this paragraph. If the department determines that a permit is not required, the individual permit application shall be treated as an application or request under par. (b), and the appropriate fee under par. (b) charged. In the event that an applicant chooses to apply for coverage under either a general or registration construction permit, the individual permit application shall be treated as an application or request under par. (am) or (as) and the appropriate fee under par. (am) or (as) shall be charged. The applicable basic fees are as follows:

- 1. \$2,300 \$3,000 if the application is not reviewed under ch. NR 405 or 408, and the application is for a new facility or for an emissions unit to be located at a minor source.
- 2. \$4,400 \$7,500, for a modification not defined as major in s. NR 405.02 (21) or 408.02 (20), when the application is for an emissions unit to be located at a major source as defined in s. NR 407.02 (4).
- 3. \$8,000 \$12,000, for a major modification as defined in s. NR 405.02 (21) or 408.02 (20), unless and the emissions unit is a major stationary source as defined in s. NR 405.02 (22) or a major source as defined in s. NR 408.02 (21).
- 4. \$12,000 \$16,000, for a major stationary source as defined in s. NR 405.02 (22) or a major source as defined in s. NR 408.02 (21).

SECTION 2. NR 410.03 (1) (a) 5. including the Note, 6., and 7. are renumbered NR 410.03 (1) (ae), (am) (intro.), and (as) (intro.) respectively, and as renumbered are amended to read:

NR 410.03 (1) (ae) \$1,100, for Each person requesting a revision of a construction permit when requested by the permit holder or the permit holder's agent shall pay a fee of \$1,500 which shall be submitted with the request, unless the only reason for the revision is to make the source eligible for a registration operation permit.

- (am) (intro.) \$2,300 Each person applying for coverage under a general construction permit issued to a part 70 for a source under s. NR 406.16- shall pay one of the following fees as appropriate, and shall submit the fee with the application for coverage:
- (as) (intro.) \$1,100 Each person applying for coverage under a registration construction permit issued to a part 70 for a source under s. NR 406.17- shall pay one of the following fees as appropriate,

and shall submit the fee with the application for coverage:

SECTION 3. NR 410.03 (1) (a) 8. to 10. are amended to read:

NR 410.03 (1) (a) 8. \$10,150 \$12,000, per air contaminant regulated under a plant-wide applicability limitation, when establishing a plant-wide applicability limitation under s. NR 406.035 (1).

- 9. \$4,850 \$6,000 for the increase of a plant-wide applicability limitation under s. NR 405.18 (11) or 408.11 (11).
- 10. \$4,850 \$6,000 for the distribution of allowable limits upon expiration of a plant–wide applicability limitation under s. NR 406.035 (2).

SECTION 4. NR 410.03 (am) 1. and 2. and (as) 1. and 2. are created to read:

NR 410.03 (am) 1. \$3,000 if the source is a part 70 source.

- 2. \$1,500 if the source is a non-part 70 source.
- (as) 1. \$1,500 if the source is a part 70 source.
- 2. \$1,000 if the source is a non-part 70 source.

SECTION 5. NR 410.03 (1) (b) (intro.) and 1. to 4. are renumbered to be NR 410.03 (1) (b) 1. (intro.) and a. to d. respectively, and as renumbered are amended to read:

NR 410.03 (1) (b) 1. (intro.) Each person <u>submitting an application for exemption or otherwise</u> requesting a determination of exemption under ch. NR 406 shall pay the following applicable fee <u>which</u> <u>shall be submitted with the application or request</u>:

- a. \$800 \$1,250, for a determination of exemption under s. NR 406.04 (1) (i).
- b. \$1,100 \$1,500 for a determination of exemption under s. NR 406.04 (1f) for a modification to a stationary source which is regulated by a plant-wide applicability limitation, except that if a detailed air quality modeling analysis of the projected air quality impact is completed, the fee shall be \$2,400.
- c. \$4,400 \$5,500 for a determination of exemption under s. NR 406.04 (1k), except that if a detailed air quality modeling analysis of the projected air quality impact is completed, the fee shall be \$6,500.

d. \$700, for a detailed air quality modeling analysis of the projected air quality impact of a determination of exemption under s. NR 406.04 (1f) or (1k). \$500 for a determination of exemption under s. NR 406.04 not included in subd. 1. a. to c.

SECTION 6. NR 410.03 (1) (bm) is amended to read:

NR 410.03 (1) (bm) Any person requesting a waiver of construction permit requirements under s. 285.60 (5m), Stats., or s. NR 406.03 (2) shall submit under s. 285.69 (1d), Stats., a \$300 \$500 fee with the request. The fee is non-refundable.

SECTION 7. NR 410.03(1) (d) is repealed.

SECTION 8. NR 410.03 (1) (e) is amended to read:

NR 410.03 (1) (e) When a construction permit application is received for a source where the basic emissions unit, which is not a portable source, is to be installed at one specified facility and, in the same application, a request is also made to issue construction permits to allow installation of the same basic emissions unit at other facilities at different locations and all the facilities for which construction permits are requested are under common ownership or control, the permit applicant shall pay the basic fee specified in par. (a) plus the additional fees in sub. (2). The fee for each additional construction permit at different locations shall be \$400 \$1,000 each, plus the fees in sub. (2) except when the action specified in sub. (2) has been completed for one location and a separate action as set forth in sub. (2) is not required for each additional permit at each different location. When an action covered under sub. (2) must be completed for applications at more than one location, the fee in sub. (2) shall be charged for each time the action is completed.

SECTION 9. NR 410.03(1) (f) is renumbered to be NR 410.03 (1) (b) 2. and as renumbered is amended to read:

NR 410.03 (1) (b) 2. Any person submitting a claim for a construction permit exemption under s.

NR 406.04 (1q) shall pay a fee of \$800 \$1,250 which shall be submitted with the claim.

SECTION 10. NR 410.03 (2) and (4) are amended to read:

NR 410.03 (2) ADDITIONAL DIRECT SOURCE FEES. Each person issued a submitting an application for an individual construction permit for a direct source shall pay all the following additional fees which apply:

- (a) \$400 \$800 per basic emissions unit if review and analysis of 2 or more basic emissions units is required.
  - (b) \$1,350 \$2,500, if an analysis of alternatives under s. NR 408.08 (2) is required.
- (c) \$3,350 \$5,000, if an emission offset under ch. NR 408 or the determination of a net emissions increase under ch. NR 405 is required.
- (d) \$2,700 \$4,500, for each case-by-case determination of maximum achievable control technology (MACT), best available control technology (BACT) or lowest achievable emission rate (LAER). This does not apply to BACT or LAER determinations made under ch. NR 445.
- (e) \$700 \$1,000, for a minor source or minor modification to a major source whose projected air quality impact requires a detailed air quality modeling analysis.
- (f) \$3,200 \$4,500, for any source, other than a minor source or minor modification to a major source, whose projected air quality impact requires a detailed air quality modeling analysis.
- (g) \$650 \$1,000, if the source is subject to an emission limitation under chs. NR 446 to 469, or if the permit establishes an emission limit for a hazardous air contaminant listed in Table A, B or C of s. NR 445.07.
- (h) If the construction permit requires emission testing, \$1,350 \$2,500 for the first air contaminant tested and \$950 \$1,250 for each additional air contaminant tested up to a maximum of \$4,200 \$6,000. If the department later finds that some or all of the tests are not required, the corresponding fees shall be refunded.
  - (i) \$1,050 \$1,500, if an environmental assessment under ch. NR 150 is required.
  - (j) \$950 \$1,500, if a public hearing is held at the request of the applicant or the applicant's agent.

- (k) \$400 \$600 for each basic emissions unit at a source which requires an emission limit determination under s. NR 424.03 (2) (c).
- (L) \$1,350, \$2,000 for each case-by-case determination of best available control technology (BACT) or lowest achievable emission rate (LAER) required under ch. NR 445. If the department makes a single BACT or LAER determination addressing the control of multiple air contaminants, the source shall be billed for only one BACT or LAER determination under this paragraph.
- (m) \$2,150 \$3,500, if specific permit conditions limiting the potential to emit are required to make the source a minor source or to make the modification a minor modification.
- (n) \$2,650 \$3,500, for a medical waste incinerator requiring review of a needs and siting analysis under s. 285.63 (10), Stats.
- (o) If the applicant requests, in writing, that the permit be issued in a shorter time interval than the time interval allowed under s. 285.61, Stats., and the department is able to comply with the request:
- 1. \$2,650 \$5,000, for an application not subject to review under ch. NR 405 or 408 if the permit is issued within 50 days of receipt of a complete application.
- 2. \$4,000 \$7,500, for an application reviewed under ch. NR 405 or 408 if the permit is issued within 60 days of receipt of a complete application.
- 3. \$2,650 \$4,000, for an application reviewed under ch. NR 405 or 408 if the permit is issued within 61 to 90 days of receipt of a complete application.
- (4) PAYMENT. The department shall bill the applicant for the construction permit application fee when the permit a final decision is issued or upon a determination that no further action will be taken on the application. For a determination of no further action, fees shall be based on the amount due with the application plus an amount for work completed under subs. (1) to (3), except that the fee for a small business, as defined in s 277.114, Stats., shall only be the initial amount due with the application. The balance due for the application fee shall be paid within 30 days of the date of the billing statement.

SECTION 11. EFFECTIVE DATE. This rule shall take effect on the first day of the month following publication in the Wisconsin administrative register as provided in s. 227.22 (2) (intro.), Stats.

SECTION 12. BOARD ADOPTION. This rule was app	proved and adopted by the State of Wisconsin
Natural Resources Board on	·
